

# PALISADES SCHOOL DISTRICT

ADMINISTRATIVE REGULATION

APPROVED: July 1, 2014

## **122.1 AR-STUDENT ELIGIBILITY**

1. The principal and athletic director (if applicable) in each district building will work with the Director of Technology to create student eligibility lists for all athletic teams and extracurricular clubs/activities in PowerSchool. Once these lists are created, it will be the advisor's responsibility to ensure that lists are updated frequently to reflect any changes to student enrollment/participation.
2. On a weekly basis, the principal or designee will run eligibility reports in PowerSchool to determine which (if any) students are failing to make adequate progress in any of their academic subject areas.
3. Eligibility lists for student athletes (in season) will be managed by the Director of Athletics, who will work with students, teachers, and coaches to ensure that all PIAA and District guidelines for eligibility are followed.
4. Eligibility lists for students participating in other extracurricular activities will be managed by the assigned activity advisor. Advisors will work with students and teachers to ensure that all students who participate in planned activities associated with their assigned club/organization/performance group are eligible to participate, and that those students who are ineligible do not participate until their academic performance meets the guidelines set forth in this policy (passing all but one course).
5. Academic support for ineligible students will be provided via guidelines set forth by the building principal.
6. Information about Board Policy 122.1 and this AR will be provided to students via the student/parent handbook in each building and on the school website.
